

Tissue Paper Cacti Flower

INSTRUCTIONS

1. Stack a few sheets of tissue paper on top of each other.
2. Fold the stack into a 1-inch (2.5-cm) wide fan.
3. Cut 1–2 small triangles out from both ends of the tissue paper.
4. Fold the fan in half, widthwise.
5. Slip a pipe cleaner through the fold.
6. Twist the ends of the pipe cleaner to make a stem.
7. Unfold the fan to open up the flower.
8. Separate the sheets of tissue paper and fluff them up.
